

I am writing in regards to the new LPFM. I understand that in the implementation of this my family may be losing its current Airl station. The station is one of the few family friendly station on the FM dial. I can be sure that my kids (as well as many others in the community) will hear music that is edifying and uplifting without being deluged with the vulgarities that are so common on many of today's FM stations. If Airl is replaced the community will be losing the only Alternative Christian Music station that can be picked up in this area.

Airl provides this community with an alternative for family listening. It reaches an element of the population that many broadcasters choose to ignore. Please do NOT confuse Airl with a station like K-Love. This is an Alternative Christian Music station. Do not give the LPFM translator service priority over the FM translator service.

Thank you for your time. Sincerely, Lisa Lawson Kidder
